The Investment Committee was tasked with carrying out the recently ratified “Roles and Responsibilities of the Investment Committee,” specifically the section entitled “Investment Policy.”

“The Investment Committee’s approach to investments is shaped by the mandates of the SCMS Board of Directors. The Investment Committee then supplies informed opinions to the Board, based on research and discussion, so that they may vote on investment decisions that best serve the Society’s needs. **Keeping in mind the Society’s portfolio may need to be updated based on the performance of the market and the needs of the Society, the Investment Committee will aim to earmark up to 20% of overall investment reserve for revenue-generating riskier investments.** The Committee will aim to earmark up to 80% of overall investment reserve to save and preserve the Society’s funds. The Committee will strive to maintain in the Society’s low risk account at least 50% of its annual operating costs to ensure the ability to meet the ongoing financial obligations of the Society. Normally, earnings from the fund shall be reinvested into the investment portfolio.”
